### 1. Qualitative Information on Quarterly Financial Results

### (1) Explanation of Operating Results

During the three months ended June 30, 2023, the Japanese and global economy made steady progress with its social and economic activities returning to normal following the lifting of behavioral restrictions against COVID-19. In the automobile industry, production by automobile manufacturers has been at a high level as the semiconductor supply shortage has been resolved. Meanwhile, the outlook remains uncertain due to inflation caused primarily by soaring prices of raw materials and energy and wage increases, and also to dramatic fluctuations in the foreign exchange rate.

Under these circumstances, the Company's consolidated net sales for the three months ended June 30, 2023 were \(\frac{1}{2}\)69,131 million, an increase of 37.6% year on year. As for profits, operating profit increased 57.9% year on year to \(\frac{1}{2}\)3,931 million, ordinary profit increased 50.9% year on year to \(\frac{1}{2}\)4,857 million, and profit attributable to owners of parent increased 89.1% year on year to \(\frac{1}{2}\)3,867 million.

Results by segment are as follows. Net sales include inter-segment sales.

### (Japan)

Net sales increased 18.7% year on year to \(\frac{4}{24}\),564 million due to an increase in sales volume, and operating profit increased 3.0% year on year to \(\frac{4}{383}\) million due mainly to efforts to improve profitability.

### (Asia)

Net sales increased 15.9% year on year to \(\frac{\pmax}{2}\)8.586 million due to foreign exchange rate fluctuations and an increase in sales volume, and operating profit increased 12.0% year on year to \(\frac{\pmax}{1}\),957 million.

### (Americas)

Net sales increased 2.5 times year on year to \$16,852 million due to an increase in sales volume including from the acquired business, and operating profit increased 4.7 times year on year to \$1,104 million.

### (Europe)

Net sales increased 24.7% year on year to \(\frac{\pma}{3}\),891 million due to foreign exchange rate fluctuations, and operating profit was \(\frac{\pma}{193}\) million (operating loss of \(\frac{\pma}{7}\) million in the previous corresponding period).

### (2) Explanation of Financial Position

As of June 30, 2023, total assets amounted to \(\frac{\pmathb{2}}{235,161}\) million, an increase of \(\frac{\pmathb{9}}{9,398}\) million from the end of the previous fiscal year, mainly due to an increase in the value of the assets of overseas subsidiaries resulting from a weaker yen. Liabilities decreased \(\frac{\pmathb{5}}{565}\) million from the end of the previous fiscal year to \(\frac{\pmathb{1}}{114,814}\) million, mainly due to a decrease in borrowings.

Net assets increased ¥9,964 million from the end of the previous fiscal year to ¥120,346 million, mainly due to an increase in foreign currency translation adjustment resulting from a weaker yen and an increase in retained earnings.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information No change has been made to the financial results forecast and divided forecast for the fiscal year ending March 31, 2024, announced on April 26, 2023.

  - 2. Segment income is adjusted with operating profit in the quarterly consolidated statements of income.

### **Summary of Financial Results for O1 FY2023**

- Net sales increased year on year due to an increase in sales volume including from the acquired fuel pump business, and to the effect of a weaker ven.
- · Operating profit increased year on year due mainly to an increase in sales volume and the effect of a weaker yen, despite of an increase in expenses such as R&D expenditure.
- · Although Q1 results exceeded the initial projections, the full-year forecast remains unchanged due to uncertainties in the external environment in Q2 and H2 of the fiscal year, including customers' operation status and the level of
